				<i>Feb 11 1966 Starts in the middle of a story- July 19 1896 - cattle brought to ? 2 wagons with two horses-7 head died on the route...had to replace horses. Jim Budge and his wife, Mr. McBride and his wife (she wrote journals). July 9th 1896 arrived at Menors ferry. Tried to "jew" them down on ferry price. Camped at Ditch Creek then the Gros Ventre. Then moved down and started to build house by butte that became the homestead. Wintered just north of Jackson first year. The family came from Rock? Oregon. Crossed Teton Pass - quite the feate- broke the wagon on the way down by tying trees to the back. This took several days to get done.12:00. They all fished Phelps Lake on the way to Menors. The came through Victor on the 4th of July 1896. There was just some cabins. "they furnished the parade that day-coming through Victor". Worked for Bob Miller feeding cattle on the refuge (prior to elk refuge)...chased the elk off the refuge. (great elk sound) 15:15. Story about Mrs. Miller. Moved in with Millers- speaker added a room onto the house - used tomato cans for eve shingling. (south room is Henry's room)</i>
